Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 2-9, 11, 12, 20 and 21, drawn to a gasket.

Group II, claim(s) 14-19 and 22, drawn to a magnet.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the invention of group I is related to a gasket having a particular type of magnet imbedded therein while the invention of group II is only related to a magnet. The invention of group II is not limited to a gasket environment and, therefore, can be used in any environment that utilizes magnets such as computer disk drives, cassette tape players or metal waste recycling facilities. Moreover, the invention of group I is different from the invention of group II since group I requires each segment of the first longitudinal having opposite polarity with respect to the other segment of the same first longitudinal band while group II requires each segment of the first longitudinal band having opposite polarity with respect to the other segment of the same second longitudinal band. See lines 9-10 of claim 20 and lines 4-6 of claim 22.

A telephone call was made to James B. Conte on May 27, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

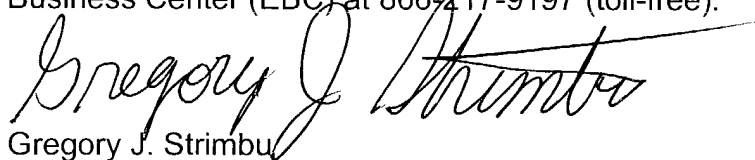

Art Unit: 3634

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory J. Strimbu whose telephone number is 703-305-3979. The examiner can normally be reached on Monday through Friday 8:00 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 703-308-2486. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
